

Housing Form

Homestay:

For most of the two weeks of the CONOCER program, participants will live in private homes in the town of Zinapécuaro. We believe that living with a family can be a wonderful gateway into Mexican culture. We have carefully selected families who welcome visitors into their homes and into their lives. From passing the salt to telling about everyday experiences to sharing personal stories, a homestay allows excellent opportunities to practice Spanish language skills and be immersed in Mexican culture, not to mention getting the chance to savor delicious home-cooked regional cuisine.

In order for our Housing Director, Tere Caballero, to arrange the most compatible homestay placement for you, please fill out this form. We ask you to type or print legibly. The information you provide is completely confidential.
